Abstract
Turkish – Iranian relations and their impact on the security of the
Gulf region (2002 – 2011)

Deafallah Ibraheim Almsubheen

Mutah Univercity, 2012

This study the subject of Turkish- Iranian relations and their impact on the security of the Gulf region for the period of the year (2001-2011), as these relations are important factors of direct and indirect repercussions the different situations in the region of the Middle East, especially security in the Gulf because Iranian- Turkish entered a critical crossroads after the occupation of Iraq in 2003, contributed to this occupation change balance of regional powers in the interests of Iran and making Turkish interests at risk by the growing aspirations Kurdish nationalism and the risks of spreading to south – east Anatolia, which resulted in a decisive changes in the policy of both countries towards each other, and the extent of the importance of interactions politics and economics, guaranteed by the relationship between them, as well as the impact of the regional ambitions them in building future directions for each party in its relationship with the other party and their impact on the Gulf region.

The study found that Iran and Turkey main bipolar system in Middle Eastern Regional both poles are located on the strategic location is very important to give each area a large role in Gulf security and thus may require common interest between them beat factors rapprochement and cooperation on competition and conflict, factors can be found in the future of the relations between the two countries.
